## MILITIA OUSTS OKLAHOMA LEGISLATURE

### ORFORDVILLE FOLK VOTE TO CONTINUE FREE HIGH SCHOOL

### UNION INSTITUTION TO BE CONTINUED IN FACE OF THREAT.

### START NEW FIGHT Precinct System Defeats Farmers; Now Attack Voting Method.

(SPECIAL TO THE GAZETTE) Orfordville—Continuation of the Union Free High School of Orfordville was assured when the results of Tuesday's election showed that the village had voted against dissolution in the face of the threat made by the farmers that patronage of Orfordville merchants would be withdrawn unless a vote to close the school was cast. Dissolution of the school was voted overwhelmingly by those in the school district outside of the village, and voting as a separate precinct, but the school was saved as the law provides dissolution must be voted in each precinct.

In the village, 101 voted against dissolution and 50 for it. The country vote was 202 for dissolution and 107 against. This gave the pro-school forces a majority of 105 in the village and the anti a majority of 205 in the country precinct. If the election had been based on the total vote instead of by precincts, the school district would have been dissolved by a majority of 285 votes.

System is Annulled

The contention is now made by the farmers that the law requiring the

### Governor's Plan to Remit State Mill Taxes Proves Kuckuk Contention.

(BY ASSOCIATED PRESS) Madison—State mill taxes have in the past been remitted through action of the emergency board in the same manner proposed by Governor Blaine at the present time, according to records here. Governor Frank McFarland was the last executive to return some taxes to the counties, while Governor La Follette has refused to have returned funds under his statutory powers.

The statement by Governor Blaine that taxes had filled the state treasury to a point where excess funds to the extent of \$1,115,000 could be remitted this year, came several months after Senator Antonine Ruchuck, conservative leader, pointed out the rapid rise in the total funds in the state treasury.

During the fight on Governor Blaine's income tax bill, proposing to raise \$12,000,000 annually, Senator Ruchuck advanced as an argument against the proposal the fact that already the state government had large accumulations of unexpended funds.

### MILITIA COLONEL READS ORDER FORBIDDING SESSION.

### SEEK LEGAL WAY

### Matter Now Up to Courts, Is Attitude of State Legislators.

(BY ASSOCIATED PRESS) State House, Oklahoma City.

—Oklahoma's "rebel" legislators were dispersed by the military at noon today, when they attempted to convene a special session of the lower house to seek the impeachment of Governor J. C. Walton.

With the atmosphere charged to a fever pitch, Charles S. Brice, speaker of the house, attempted to call the house members to order. Brice had barely raised his hand and said "Gentlemen of the house," when Colonel Key, stepping in, broke in and in a loud voice called everyone in the crowd to remain motionless.

He then read the order prohibiting the session.

The order follows:

"Pursuant to special executive military orders, issued by Governor J. C. Walton of Oklahoma, and commander in chief of military forces of said state, addressed to the adjutant general, forbidding the gathering or assembly in a pretended session of any or all members of the Oklahoma legislature at the state house in Oklahoma City at 12 o'clock noon of Sept. 26, 1928, or at any time or place within the state during the present period of unrest, it becomes my duty, by direction of the adjutant general, to enforce the provisions of the governor's order. Wherefore, I, William S. Key, adjutant general of the district of Oklahoma county, forbid this attempted meeting and direct that you disperse immediately."

When Colonel Key had completed his reading, D. A. Slovall, of Hugo, representative from Choctaw county, asked the military commander if he

had the full force of the state national guard behind the order.

Colonel Key replied that the military was being dispersed as a legislature, Colonel Key responded never were opened and throughout the proceedings, none of the military approached nearer the chamber than the military guard stationed about 20 feet in front of the main entrance.

The house members left the capitol almost in a body for their caucus headquarters at a hotel.

The scene that attended the dispersal was unprecedented.

House members and newspaper men were grouped as closely as possible to the entrance of the chamber, when Brice, from the back of the crowd and across the open ground, made the rounds suddenly made an effort to call the session to order.

There was a shuffle as members sought to get to their seats. The sharp command of the guard commander to "stand where you are" arrested the movement.

Colonel Key, who had rung the crowd about the house entrance, was caught in the midst of the floor as the members faced about and all stood silently while the order was read. Then, in groups of twos and threes, the crowd scattered.

For a moment the situation took on a threatening aspect. There was determination written on the face of Colonel Key as he issued his command to the legislators to disperse at once. He spoke in a low voice that left no doubt as to his determination to carry out the orders of his superiors.

The crowd seemed taken back by the suddenness of the action and the change in demeanor of the armed guardsmen posted around the room.

There was, however, no indication of resistance and, within the span of a few seconds, the assembly broke up.

Not more than 200 persons witnessed the scene.

Members of the legislature went from the capitol to their headquarters in a hotel. They were met by about 10 of Governor Walton's armed operatives in civilian clothes and informed they would be in session of the house in the hotel. Several leaders of the movement left immediately for another hotel.

## PLAN SHOW-DOWN GOOD DEMAND FOR ON MILK ISSUE GRADE DAIRY COWS

### Second Hearing Proposed on Ordinance Requiring Pasteurization or Certifying.

An amendment to the city milk ordinance which would regulate all milk and cream distributed in Janesville to be either pasteurized by the "holding" method or be obtained from a certified herd is still before the city council for passage, and indications point to the probability of a public hearing being held on the matter during the next three or four weeks.

The amendment also provides for the creation of a board on milk certification consisting of five members—two from the health department, one a veterinarian, one member of a medical society and one child health specialist—but in view of the fact that the city is doing away with boards of this kind it appears probable that authority for certification would be vested in the city manager in event the amendment passed. He could then call in what outside advice he felt was necessary.

**Would Tighten Restrictions.**

Should it be passed, the amendment would make the regulations on the sale of milk much more strict. Under the present ordinance, pasteurization by the "flash" system is permissible and all other milk must be from herds inspected twice a year. According to Dr. L. J. Woodworth there were only three people the past year who sold milk the latter way without pasteurization.

The "flash" system of pasteurization requires heating for only five minutes, while under the "holding" method it is necessary to heat the milk to 145 degrees and keep it there for 30 minutes, then cool it to 30 degrees. Janesville dealers are now arranging to install, and some have already done so, such equipment as is necessary to pasteurize the latter way, and it is believed no higher prices would be paid for it.

**Pushed by Mrs. Manning.**

When the ordinance was revived by Councilman Mrs. Emma H. Manning at Monday night's council meeting she drew attention to the fact that the health officials, the retiring board of health and many others are convinced the amendment should be passed as a health safeguard, and recommended that the measure be either adopted or killed and not remain pending.

"It would please the health department more if an ordinance could be passed providing that only pasteurized milk could be sold in the city," said both Dr. Fred B. Welch, city health officer, and Dr. Woodworth. "But we realize there is a demand for unpasteurized milk and the only way that should be fulfilled is by having the milk come from certified herds."

Dr. Welch admitted that there had been no milk-borne epidemics in Janesville, but declared there is no telling when there might be one under the present conditions.

**WARN OF STOCK SALESMEN.**

Madison—A warning to beware of salesmen selling stock of the A. L. Powell Power company of Miles City, Mont., was issued by the securities division of the railroad commission. Permit for sale of the stock in the state has not been issued.

### Buyers Seeking Stock to Start Dairying in Corn Belt States.

**By LEWIS C. FRENCH**

Five times during the past week farmers have asked the following question at the office of the Rock county Farm Bureau: "Where can I buy a carload of high grade dairy cows?" Two carloads of grade Holsteins were shipped out recently to nearby states, and it is likely that could be located, farmers of Rock county could in another week sell at least 10 carloads of grade cattle.

The buyers are coming in representing farmers now turning to dairying in states like Iowa, Illinois and the Dakotas. There were 11 letters received from such states as Idaho, Wyoming and Montana from prospective buyers of clean, high grade dairy cows.

Rock county farmers have opportunity knocking at their door. It is a question of whether they will efficiently handle such livestock sales.

The financial condition and morale of the southern Wisconsin farmer is at a low ebb for various just reasons.

**Sell Surplus Stock.**

Unfavorable weather during the climax of the harvest season has cost farmers a large sum of money. The tobacco loss was gigantic, but big as it was it was slight as compared to the loss on corn and other crops. Weather conditions cannot be regulated, and it becomes a problem of turning to something that will produce the cash so badly needed.

The majority of farmers in Rock county raise dairy cattle. They have the help and young stock that will sell to an advantage. But a good many farmers will not spend a two-cent stamp to list their stock with their breed association or farm bureau. Yet these same farmers would not by their stock does not move.

Any farmer that has young grade dairy stock that can pass the tuberculin test, and carries fairly good type, can make immediate sales.

The exhibiting of the show herds at the advertising Rock county obtained this fall is bringing results. Every cattle buyer or farmer that comes into the Farm Bureau office looking for a dairy cow speaks of the "Rock county show herds." But the significant feature is that every one thus far has asked about high grade cattle, with now and then a request for a purebred bull. The main demand is for grade Guernseys and Holsteins, with several calls for Brown Swisses, Jerseys and Durhams.

**List Livestock.**

There is no use building up the reputation that the county merits to attract buyers unless there is an operating and organization sufficient to handle the business after it gets here. Cattle buyers have no time to waste riding to all parts of the county looking for stock in a place-meal manner. They want action right off the bat or they will go elsewhere.

The first step needed is a survey of the county and an accurate list with information on the stock that is for sale. It is discouraging to have buyers with real cash come here and then

not be able to serve them in a proper manner. "Too busy" is no excuse. When the farmer is too busy to pay a little attention to sales and the development of his markets, there is no cash in sight, something is radically wrong.

**Distribute Blanks.**

Blanks for listing livestock and other farm products have been distributed and farmers are urged to return these blanks at an early date. Dairymen having surplus stock for sale are urged to use this list at once or send in a report on what they have for sale, a description of the stock and the price.

This information must be obtained to meet the calls for stock. The demand is mainly for young stock, fresh or "close springers," and the call is about even for grade Holsteins and Guernseys.

## DAIRYMEN LEAVE FOR WATERLOO, IA.

### Judging at Dairy Congress Starts—State Herd Ready.

On to Waterloo. A number of Jefferson, Walworth and Rock county cattle breeders left for the Iowa city Wednesday to attend the Dairy Congress. The cattle judging started Wednesday and the Guernseys and Jerseys are due for the opening ring inspection. The Holstein classes will be called Thursday.

Among these going to the Iowa exposition—the mid-western dairy classic—are E. P. Coon, Dr. G. W. Post, Milton, Archie Cullen, J. A. Craig, Janesville, W. O. Douglas, Janesville, and Superintendent Volght of the Jefferson county farm.

The Rock, Jefferson and Walworth county stock reached Waterloo safely and the Wisconsin state herd of Holsteins increased by the animals shipped from a La Crosse by J. C. Nisbet, manager of the Rock county exhibit.

The Wisconsin state herd of Holsteins is represented mainly by the Jefferson county with several herds from Waukesha, Walworth and Rock counties. Information received from Nisbet indicates that the Wisconsin grand champion Holstein bull is still holding "the blue" and will go into the Waterloo ring in better condition than he was at West Allis. The Minnesota and Iowa champions will be the new contenders for honors. The Waukesha bull, finishing second at Wisconsin, will also be exhibited.

## EXCHANGE HEAD TO GO BEFORE JURY

New York—Seymour Cromwell, president of the New York Stock Exchange, today appeared before District Attorney Benton and refused to answer questions concerning his address at Atlantic City, in which he alleged politicians had attempted to tamper with stock exchange officials on behalf of bucketshop operators. Ferdinand Pecora, chief assistant district attorney, later announced Mr. Cromwell would be taken before the grand jury.

If Stomach Sours, Gets Gassy and Heavy, Sweeten and Lighten With Stuart's Dyspepsia Tablets.

One never grows too old to forget the delights of eating. And yet old people will sometimes play on these memories and bring on dyspeptic attacks even though the diet be simple. Every family should be supplied with Stuart's Dyspepsia Tablets. From childhood to old age they daily overcome or prevent the distresses due to indigestion. They sweeten the stomach by giving it the alkaline effect as in health, they absorb the gases, they lift off the feeling of heaviness, they stop sour indigestion or heart burn, they actually assist in the digestion of food, and from all points of view are one of the most invaluable aids to health to be found. So, no matter what you eat, if your stomach rebels, always remember that a 60-cent box of Stuart's Dyspepsia Tablets will keep your stomach sweet and thus aid to prevent much of the distress that comes late in life.—Advertisement.

## Milwaukee Lady Says All Should Know Facts

"Tanlac is a medicine everybody ought to know about," declared Mrs. Marie Schauer, 548 Deer St., Milwaukee, Wis.

"Two years ago my appetite was very poor and I had a depressed feeling in my stomach after every meal. I had heartburn, too, headaches and dizzy attacks. My back pained me also, I lost considerable weight and became weak and run down in general and simply felt miserable.

"Tanlac certainly built me up wonderfully. It gave me such a ravenous appetite that when I would get out and walk a few blocks and then come home I couldn't get to the table fast enough. I gained back all the weight I lost and felt good and strong again."

Tanlac is for sale by all good druggists. Accept no substitutes. Over 27 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Advertisement.

## Why Beauty Goes

There is now a way to bring it back—easy, quick and pleasant

Waste matter lingers in the intestines, because the bowels are not active. Its poisons are absorbed. Those poisons go to every cell, causing sallow, muddy complexion, blotches, blemishes, etc.

One day of bowel stoppage often shows in the face. Continued inactivity leaves indelible marks, which cosmetics cannot end.

Laxatives bring but brief relief. Doses must be repeated and increased, and they lead to the laxative habit.

They are irritating, harmful. They often cause what they are used to cure. Doctors will advise you not to depend on them.

There is now an ideal treatment—a creamy, sweet emulsion called Milk of Moss. It is fast supplanting physics, as it must.

The basis is poka rock oil—an oil that can't digest. Not a drop can be absorbed. So it lubricates the bowels, softens the contents, leads to easy natural action.

The oil is emulsified with granulated nycel moss. That is a sea moss whose granules absorb water. In the bowels they swell into countless sponges, forming soft, efficient roughage.

Healthy bowels lubricate themselves. Fibrous foods, if eaten in plenty, supply the essential roughage. But sluggish bowels prove these things lacking, so you must supply them with Milk of Moss.

That's the way to clear complexion, and a delightful way. Also the way of health and cheer. Stop those poisons, keep the bowels active in this easy, pleasant way. The best way modern science knows for treating constipation, chronic or acute.

We want you to learn the results. So we will buy a bottle for you if you send this slip.

**60c Bottle Free**

Miss Queenie Roberts and Miss Helen Reardon were prize winners. Lunch was served. Miss Reardon is to entertain the club in a fortnight.

**Mr. and Mrs. A. E. Shumway and daughter, Miss Mabel Shumway, 706 Court street, have returned from Chetek, where they spent the summer at their cottage.**

**Miss Lillian Dixon, Chicago, was the week-end guest of her parents, Mr. and Mrs. J. M. Dixon, 727 South Main street.**

**Wagner-Douglas Wedding**—Twenty-five guests attended the wedding of Miss Vera Anna Wagner, daughter of Mr. and Mrs. Fred Wagner, Town of Harmony, and Ellis A. Douglas, son of Mr. and Mrs. W. A. Douglas, Town of Plymouth, which was celebrated on the porch of the Wagner home at 8 p. m. Tuesday. The porch was resplendent with autumn leaves with a pink and white wedding bell making the center for the wedding party to stand. Miss Evelyn Schenkel played Lohengrin's Wedding March as the bride and groom and their attendants marched to the porch. The Rev. C. W. Boag, Methodist church, Beloit, officiated. The wedding gown was of white georgette, ribbon trimmed. She wore a white chiffon veil, skirt length, and carried a shower of bride's roses and carnations. Miss Frances Patterson, the bridesmaid, was attired in pink crepe du chene and carried an arm bouquet of pink carnations. Harold Wegner acted as best man. A two course supper was served at the Wagner home, which a pink and white color scheme was carried out at the tables. Mr. and Mrs.

Douglas will take a trip through Iowa before beginning housekeeping on the groom's father's farm in the town of Plymouth.

**Out of town guests at the wedding** were: Mr. and Mrs. John Wolfson and family, Delavan; Mr. and Mrs. Harry Schenkel and family, Mr. and Mrs. Arno Goddard and family, Lima; William Potter, Eagle; Mr. and Mrs. William Patterson and family, Johnson Creek; Mrs. E. G. Artzfeldt, Minneapolis; Mrs. E. L. Walker and sons, Dresden, Kan.

# \$666. SUBSCRIBED TO SALVATION ARMY

Women Canvassers Accountable for \$500 of Amount Raised up to 2nd Day.

The Salvation Army drive got a good start Tuesday. The actual returns in cash and subscriptions reported to headquarters in the Chamber of Commerce amounted to only \$322.60, but reports were made by only a few of the 50 teams that are to make the canvass. The total to date is \$666.10, which includes many advance donations.

An appeal for more workers on the men's teams was made at the joint meeting of the Rotary, Kiwanis and Lions clubs Wednesday noon by Oscar Nelson, organization chairman.

Need Twelve 1922 Quota. At workers have been advised to emphasize the fact that twice as much money must be raised this year as was given last year, owing to the fact that one-half of the budget goes to support the day nursery, a new department of work.

"Unless the people take the Salvation Army off the penny basis and put it where it belongs as an institution worthy of liberty support, we cannot hope to raise the \$5,000 needed," said Oscar Nelson.

Women's Total \$438. Sidney Bostwick, chairman of the special gifts committee, said that he will not be ready to make a report before the end of the week.

The women's special gifts committee reported a total of \$284 in advance of subscriptions. Women workers reported \$206.10 collected Tuesday, which gives the women a total credit of \$489.10. Two men's teams reported \$177.50. All subscriptions reported up to Wednesday morning totaled \$666.10.

## FIND CAP FROM LOST FRUIT BOAT

Milwaukee.—A cloth cap, believed to have belonged to a member of the crew of the ill-fated fruit boat Porelle, lost in a storm on Lake Michigan Thursday, has been picked up on the beach near Koshong and was later identified by Mrs. Walter Rosenstock as that belonging to her husband a member of the crew.

THE THING THAT HURT. Magistrate—"Have you anything to say before I pass sentence?" Burglar—"No, your honor. It's a bit thick being identified by a bloke who kept his head under the bedclothes the whole time."—London Opinion.

# GARBAGE WILL BE DEPOSITED FARTHER OUT

Members of the board of health met with Joseph Schindler, city garbage collector, at the office of Dr. Fred B. Welch, city health officer, at 4 p. m. Tuesday and succeeded in making satisfactory arrangements with him whereby in the future he will deposit the garbage further away from the city limits. The action followed complaints from First ward citizens that the refuse was being deposited too close to them.

City Manager Henry Traxler and Councilman Mrs. Emma H. Manning, chairman of the council's health committee, attended the meeting.

It was one of the last sessions of the board of health as it is expected that the council at its next meeting, Oct. 8, will pass an ordinance abolishing the board and investing its powers and duties with the city manager.

## PLUMP TREASURY WAS FORECAST BY ANTI-LA FOLLETES

(Continued from Page 1.) jump in accumulated state funds occurred between 1922 and 1923. These figures show that, on the close of business for the third week in September, 1923, there was \$2,755,178 in the general fund and \$4,121,052 in all funds. These funds at the same time in 1922 amounted to \$2,619,466 in the general and \$5,552,377 in all funds. Then came the big jump to \$7,107,582 for the general fund and \$10,304,731 for all funds on September 22, 1923.

No Great Reduction. With these large balances in the state funds, the failure of the legis-

lature to pass appropriation bills for the university and normal schools received the state from normal expenses for capital and maintenance which the secretary of state's office estimates would have amounted to several hundred thousands of dollars. Other returns from state taxes and railroad and utility taxes are expected to be higher this year, giving more of a surplus.

This situation the governor has been determining to permit some of the state taxes. The fact that total taxes in Wisconsin amount to approximately \$117,000,000, it is said by officials, is no doubt whether there will be an appreciable reduction in taxes.

Claims \$12,000,000 Saved. Governor Blaine's claim that he "saved" to the people of the state \$12,000,000 for the biennium is supposed here to include \$6,000,000 which he asserts was the "saving" caused by veto of the gasoline tax bill. Other vetoes included the Northern Lakes Park bill, carrying an appropriation of \$300,000, and a bill providing for the education of dependent children.

Governor Blaine has not yet given an analysis of his claim that he has saved \$12,000,000 to the people for the coming biennium. It is thought that shortly he will discuss the details showing how this claimed saving has been brought about.

# ORFORDVILLE FOLK VOTE TO CONTINUE FREE HIGH SCHOOL

(Continued from Page 1.) measure to be carried by precincts is unconstitutional and a move to have it so declared would not be unexpected. To do this would require favorable action by the state supreme court. The election held Tuesday was in compliance with the law, which holds that after four years, a vote may be taken to determine whether the union free high school be continued.

There was a large turnout, as indicated by the vote, and much interest was shown in the results. The voters voted at the village hall and those of the country districts at Odd Fellows hall. It was estimated that there were only 40 or 50 more potential votes in the village and the vote showed the farmers turned out even better than usual. Telephones were busy all day long. As many women as men, if not more, were seen casting their vote.

No Celebration. The polls closed at 5:30 and the village election result was announced at 6 p. m. The result of the farmers' vote was not completed until 6:30. There was no undue celebration by either faction.

Officials at the village polls were F. A. Cole, William Wells, Frank Ashby, George Pankhurst, Gunder Wilham and Wesley Jones. Frank Hoffman, Mrs. Warren Bowles, Mrs. John Bernstein, Mrs. Elman Everson, Joseph Dybvik, and James Ward composed the force.

The farmers claimed that misrepresentation was made at the time the union high school campaign was made, and at a meeting Friday night with businessmen, the committee representing the farmers demanded the village release them from supporting the high school. The burden of taxation is so great that they can no longer afford to support the school, the committee told the businessmen. Interesting developments are expected to follow the vote taken Tuesday.

## Through a Sieve Woven Finer Than Silk

Raw materials of which portland cement is made come out of the ground usually as solid rock.

They must first be crushed, ground and reground until at least 85 per cent of the resulting powder will shake through a sieve that will actually hold water.

This sieve is considerably finer than the finest silk fabric. It has 200 hair-like bronze wires to the inch. That means 40,000 holes to the square inch.

But the several crushings and grindings necessary to reduce solid rock to this extreme fineness are only the beginning of cement making.

The powdered materials must then be subjected to intense heat for several hours in huge rotary kilns. Here they are half melted and become a substance much harder than the original rock—clinker, it is called.

Then the clinker must be crushed and ground until at least 78 per cent of the resulting product will pass through the sieve woven finer than silk. This is portland cement.

More than 80 power and fuel consuming operations are necessary in cement making. The electric power alone used in producing a barrel of portland cement would, if purchased at usual household rates, cost \$1.70.

Few manufactured products go through so involved or complicated a process as portland cement. And it sells for less per pound than any comparable manufactured product.

By FRANK SINCLAIR

COMPARING home talent baseball with that of other days in Wisconsin, Hornick, catcher for Fort Atkinson, pennant winner of the southern Wisconsin circuit, remarked a few weeks ago that he remembered, "I was not at first sold to home talent," he said. "But I am now. When I see that spirit that has been developed and how the boys have worked together, I am for it. I remember a game that was played about 1914 between Fort and Janesville when I was at bat. The manager came over to me and said: 'If you hit the ball, keep on running.' I did not think about it right then, but when they threw the ball to second and then to third as I was going home, it sunk in. That game was thrown and it was not the only one in those days. Nowadays, though, we have honest baseball."

THAT is something for the citizens of the several towns in last season's circuit to stop and ponder over. It may be news to many of them. Along with paying, they were not getting a square deal from the players who did not care a rap for the sport of the game. All they wanted was to "play to the crowd" in such manner that they might get another crash at the gate receipts. Which would you rather have?

THEN, when you think of it, what better game was ever played at Fort Atkinson than that 12 inning affair on Sep. 9 when the Robins defeated Watertown, 4 to 2. The writer would much rather have seen Fort playing Watertown with the same lineup that it used throughout the league season, instead of hiring two Janesville players. The point, however, is this: The players were all those that participated in south Wisconsin league or Twin county league contests. There were no Milwaukee or Chicago ringers. Home talent baseball no longer is a theory. It is practical.

YOUR TOWN! MAKE IT A PLAY GROUND, NOT A PAYGROUND.

**Diamond Sparkles** (By A. P.)—The New York Giants, in a pitching duel between Lugo and Watson, defeated the Reds in Cincinnati 5 to 2, and almost clinched the pennant. The Giants are again four games ahead, with only six to play, counting the game with St. Louis, which probably will be cancelled. The Yanks, in a see-saw game with the Pirates, lost 5 to 4. While the Boston Braves were beating the Cubs, 6 to 0, the Red Sox were losing to the St. Louis Browns, 8 to 2. The Pirates stepped out and trimmed the Phillies, 18 to 5. Philadelphia took both ends of a double-header with the Cubs, 10 to 5 and 5 to 1. The Cardinals defeated Brooklyn, 4 to 1. Fort Worth, winner of the Texas league season, won the Dixie series from New Orleans, Southern association champions, 3 to 1.

## WISCONSIN, ARMY AND DARTMOUTH HAVE NEW TUTORS

Pennsylvania, Dartmouth, Columbia, West Point and Wisconsin are among the leading schools of the country that have new football coaches this year and the eyes of the football world will be centered on them during the next two weeks of preliminary games to see what they have developed.

At Wisconsin, Coach Jack Ryan has succeeded the veteran Richards and is fast whipping an eleven into shape that promises to make a great showing in the Big Ten race this year. His success in developing winning teams at Dartmouth and Marquette makes Ryan a favorite and fans are hopeful that under his tutoring the Badgers may once more come back as dangerous contenders in the conference.

Interest is attached to the games in the east Saturday when several teams with new coaches will perform. For the first time, although early season games in the west will attract the usual amount of attention.

Percy Vaughan, who has successfully coached Harvard eleven in the east and is Columbia's mentor this year and fans are awaiting to see what his team will produce in its opening game against Urahite Saturday.

Pennsylvania opens its 1923 season Saturday against Franklin and Marshall in Philadelphia after weeks of coaching by Louis A. Young, a former Penn player who is assisted by other former Penn stars. A complete new system of coaching is in vogue at Penn this year following dissatisfaction with results of the past few years.

Dartmouth has pinned its hopes on the abilities of Jesse Hawley, who as head coach of Iowa a number of years ago was successful in turning out good teams. He is a former Dartmouth man. His team will open the season Saturday against Norwich on the home field at Hanover, N. H.

An All-American selection in 1914, Capt. John J. McEwen, former Army player, has assumed charge of the Army's coaching staff this fall succeeding Maj. Charley Daly. McEwen was a guard. His team will get into action this week, ending a losing streak at West Point. The Army-Notre Dame game is Oct. 13.

At other leading colleges and universities there has been no change in coaches. Yale again has Ted Jones, Harvard has Bob Fisher, Bill Roper is doing the work at Princeton, Bob Schuchert is coaching the Navy, and Doble is back at Cornell. West Virginia has Dr. Spencer Glen Warner is at Pittsburgh and Hugo Bezdek of West Virginia is coaching the Cardinals. Smith, while Southern California has Gus Henderson, and Leland Stanford, Andy Kerr.

## SCOUR WOODS FOR LOST BOY

Mellen, Wis.—Ralph Henry, two and one-half year old son of Mr. and Mrs. John Henry of Mellen, has been missing since 10 a. m. Saturday, when he wandered from his home.  
Bloodhounds have been used, searching parties, numbering hundreds, have hunted in surrounding woods, and Devils Creek, which flows near the Henry place, has been dragged, but to no avail.  
Tuesday all of the school children of Mellen aided in the search for the missing child.

## INSPECTOR GENERAL OF GUARD ABOLISHED

Madison.—The office of inspector general held for several years by Lieut. Col. T. Byron Beveridge, formerly captain of the 1st Wisconsin Infantry, has been abolished. A salary of \$3,000 was carried. Colonel Beveridge will edit the Wisconsin National Guard Review, a publication being financed by private subscriptions.

## OKLAHOMA CITY IS STIRRED AS DAY OF SHOWDOWN ARRIVES

(Continued from Page 1)  
The convening of the extra session of the state legislature at noon, had been completed at 9:30 a. m.  
It was estimated approximately 100 guardsmen were in the building. Every corridor, every outside entrance and all driveways in the immediate vicinity were patrolled.

## OKLAHOMA CAPITAL TENSE AS MOBILE GUARD UNITS COME

Okla. City.—An air of tense expectancy pervaded the city early today as additional units of the Oklahoma national guard arrived to reinforce the troops already mobilized. Strict censorship of troop movements prevent an accurate count of the military forces, but it was estimated that fully 500 were in the field.  
No crowds were permitted to collect around or inside the capitol this morning. Only state officials with business within and newspapermen were allowed to enter the building.  
Despite Governor Walton's order directing the use of all force of arms and men necessary to prevent the meeting, the belief was expressed in well informed quarters that only a very small show of military force would be made in halting the legislators.

## Salons Are Warned.

This opinion gained strength with the issuance by Adjutant General S. H. Markham, of an official command to the house members not to try to meet, although there was nothing in the decree itself to indicate what action the troops contemplated.  
Early today 60 members of the house had signed the call and predictions were made that at least a dozen more names would be added before noon. Fifty-four constitutes a majority of the house.  
At least eight other members of the house were listed by observers as favorable to Governor Walton, seven were considered "doubtful" and no expression had been obtained from nine others.

## Only for U. S. Business.

A telegraphic appeal by Governor Walton to President Coolidge last night, asking that the government prevent the use of the local federal building for the session, brought a quick response from the White House that regulations prohibit the use of government buildings except for United States business. The governor asked to forestall such an attempt after reading a news item in a local publication which quoted Federal Judge J. H. Hastings as saying he saw no reason why his court room in the federal building could not be used by the lawmakers. The judge categorically denied the statement attributed to him.  
A meeting of the house members seeking its impeachment is prohibited by Governor Walton on the ground that more than a majority of the house are members of the Ku Klux Klan.

## Only Session Illegal.

He has proclaimed the proposed session as an illegal assembly, declaring it would be "dominated and controlled by the Ku Klux Klan."  
The session, he charges, was called by the Ku Klux Klan in an effort to silence his voice in his war on the secret organization.  
This the legislators deny, declaring that they are within their rights in calling the meeting, in an attempt to "restore constitutional government and end executive despotism."  
Sensible and sentimental people have but little in common.

## WORLD SEARCH FOR CHICAGOAN STARTS; FRAUD IS CHARGED

Chicago.—An international search for Alfred Modern, president of the consolidated California Grape company, Inc., Chicago, has been started here after the filing of a complaint by Joseph Rendell of Kenosha, who claimed he was victimized for \$10,000 in a confidence game that may result in losses of \$250,000 to clients in Illinois, Michigan and Wisconsin. Attempts by him to obtain Modern, who is believed to be in France, have been unsuccessful. According to Rendell's complaint, Modern issued quantities of fake bills of lading covering shipments that did not exist.

# SENATOR SEES RUSS BISHOP IN PRISON

Madison.—Senator William H. King of Utah, inspecting the prisons of Moscow, saw Archbishop Zaglad, head of the Russian Catholic church in Russia, who is serving a 10 year sentence for acts adjudged inimical to the proletariat. The senator said the prelate was apparently well treated and that he was receiving food from the Catholic mission.

## NAVAL COMMISSION SCORED BY BISHOP

La Fayette, Ind.—Bishop W. P. Fairfield of Mexico City and Peru, speaking at the Northwestern Ind-

iana conference of the Methodist Episcopal church here today, declared the appointment of the large United States naval commission to Brazil was a far-reaching diplomatic blunder which helped to defeat the aims of the Santiago Pan-American conference and now threatens the peace among South American republics. "It encourages a big military budget in a nation already half bankrupt," he declared.

## "LUCK DAY" SLIPS VIOLATE THE LAW

Madison.—The giving out of purchase slips by merchants, upon the understanding that holders of these slips may on a "luck day" be re-

turned with merchandise equal to the amount shown on the slip, is a violation of the state lottery laws, W. W. Gilman, assistant attorney general, ruled.

He held in an opinion to J. Q. Emery, deputy and foot commissioner, that the plan was a violation of the law against lotteries.

# Fall Opening

FALL OPENING has a double significance with us at this time—first, it is an added opportunity to become acquainted with more people of Janesville and vicinity and second, it is our first season's opening in this city and we are glad to be a part of it.

THE FALL STYLES we are showing this season are especially good—we are enthusiastic about them, and those that have seen them feel as we do; that we are giving Janesville people the most up-to-the-minute styles obtainable anywhere and at popular prices.

SHOE STYLES FOR WOMEN embrace all the models that are popular this year in sueded, patents, and satins. Fashion's whims in the novelty lines are manifest in the fancy cut-out, log cabins, and smart tailored low heel wets.

## KLAN TO BE 1924 CAMPAIGN ISSUE

Opponents Expected to Force Vote on Denunciatory Resolutions.

By DAVID L. WARDEN  
Copyright, 1923, by Janesville Daily Gazette.

Washington.—The Ku Klux Klan issue will influence the outcome of the republican and democratic national conventions. Politicians reluctantly have come to that conclusion after receiving reports from various parts of the union. It will be agitated not by those who favor the principles of the Klan, but by those who oppose the idea. And naturally the opponents will not be permitted to have things their own way. Resolutions will be introduced at the conventions which will leave the democratic party in a number among their delegates men who are actually affiliated with the K. K. K.

The difficulty of avoiding or side-stepping the issue has been fully demonstrated in the case of several political leaders, but it seems apparent that the various people who are opposed to the Ku Klux Klan will demand denunciatory resolutions as the price of their continued support.

Problem for G. O. P.  
The situation in the republican party arises out of the fact that the republican vote in the last election of the northern states has been increased since 1920 by hundreds of thousands of colored voters who have migrated northward. This has caused the republican party to denounce not only lynch law but all forms of lawlessness and all operations of secret, oath-bound organizations.

The democratic party receives much of its support in the populous states of New York, Massachusetts, New Jersey, where Catholic societies are well organized and can wield considerable political power. The party that denounces the K. K. K. will make a strong bid for the Irish-Catholic vote, which was strong enough in 1920 to secure the victory on the league of nations issue, for instance, which so many of the Irish-Americans violently opposed. The fact that the Irish-Catholic vote will leave the democratic party in the issue is serious enough has been demonstrated with sufficient proof to make the democratic leaders wary about ignoring that element in the party.

May Affect Candidates  
The K. K. K. issue is so much of a factor already in it may have an influence on the choice of candidates. There are rumors, for instance, that friends of Senator Oscar Underwood are urging him to take the leadership in opposing the K. K. K., contending that since he comes from the south his opposition will be even more weighty than might otherwise be the case.

Growth Is Wonderful  
The growth of the Ku Klux Klan in the three years since the 1920 convention has been so widespread that political leaders have had to take of comparison with other years. There are always movements in every convention to denounce things but the K. K. K. of 1920 was relatively a negligible factor in national politics. Should an effort be made in the platform committees of either party to squelch the question without any expression whatsoever, it seems certain that the issue will be raised from the floor. Reports received by some of the party leaders here indicate that both political parties will be challenged to say something on the question which will in substance seek to compel the K. K. K. to throw off its mask and conduct its campaigns in the open like other social, political or religious organizations.

Violin and Piano Instruction May Be Instituted  
Notices were sent out that all pupils in the fifth and sixth grades who intend to take band work this year should notify the regularly assigned teachers by today and many have done so.

R. C. Jack, band instructor, will confer with each pupil relative to the kind of instrument to be bought. Information may be obtained from him.

Pupils in the sixth grade and junior high school will be given an opportunity to start violin instruction soon. Miss Doris Randolph, Milton, will teach. Classes will be held at the high school once a week and will be paid for by the children. The cost per lesson will be small on account of class instruction.

The possibility of conducting piano classes in the same manner for children of the fifth and sixth grades and junior high school is being considered. Should they be started, it would be unnecessary for the pupils to have a piano at home, as there is an instrument in every school building in the city.

RECOVER STOLEN NARCOTIC NEEDLES  
Narcotic needles stolen by the "dope" thief who looted the Dr. J. J. Burdick office in the Hayes block Sunday night were found in a toilet at the Rockford and Interurban railway station here Monday, according to the police.

BLIVEN SAYS HE CAN'T IDENTIFY MAN IN ROCKFORD  
Sgt. Charles R. Handy and Patrolman William Ford accompanied Silas H. Bliven, confessed booze dealer, to Rockford, Tuesday, where Bliven was to see if he could identify one Caselli as the man who sold him liquor in large quantities. A call from Mr. Handy later in the day said Bliven did not identify Caselli, who was arrested by the Rockford police and held on the local warrant. It was expected he would be released.

Russo-British Barter Now Reaches Ship-Load Stage  
Grimly, Finland.—Barter trading with Russia has been carried on for some time in small transactions, but the first steamer to carry a full load of goods for barter is shortly leaving here for the Kara sea. This is the steamer "Trotsky," owned by the Russo-Norwegian Navigation company, which will carry tea, coffee, wines, textiles and agricultural implements to be exchanged for furs, skins, swansdown and horsehair. These will be brought by caravan a distance of 2,000 miles to a point on the Kara sea, which the "Trotsky" will touch at.

## Weather for 1924

Forecast for the Gazette written by

L. C. MEAD

Copyright 1923 by the Gazette Printing Co., Janesville, Wis.

Following is the forecast of weather conditions for the year 1924, made for the Janesville Daily Gazette by L. C. Mead, weather forecaster. The Gazette has copyrighted these predictions and reproduction is not permitted without sanction of the Gazette Printing Company. There is deep interest in the weather forecasts made by Mr. Mead who has given the subject a life study.

1924 is Leap year. There will be 366 days and February will have 29 days. The winter of 1923-24 will be a very mild one.

### JANUARY

While New Year's day may be fair, a snow storm is due by night. First to 2nd snow storm, but the cold will be of short duration. Some local rain or snow for the 4th or 5th, not likely to amount to much. Snow likely about the 13th, but the cold will be of short duration; 17th to 20th warm wave, mostly clear; 21st cloudy, local snows to north; 22 to 25 mostly fair, mild; 26 to 27 local snows; 30 to 31 rain or snow, but more likely rain.

### FEBRUARY

First, likely, cloudy; 2 to 3 fair, moderate temperature; 4 to 5 local snows; 10 to 11 rain turning to snow and soon clearing; 12 increasing cloudiness; 13 to 14 rain or snow and colder over the 15th; 16 to 18 partly cloudy though fair, slowly rising temperature; 19th light snow; 20 fair, colder; 21 to 22 mostly cloudy and mild, with only light precipitation, if any; 23 light rain or snow; 28 local snows to the north and colder over the 29th.

### MARCH

First to 2nd fair, rising temperature; 3 to 4 howling, fierce blizzard, and severe cold wave, lasting from 3rd to 5th day. From 4 to 6 inches of ice may form during this period; 11th, moderating; 12 to 14 mild, some local rain; 15 to 19 mostly fair, with rising temperature, might rise up into the 70's by the 18th or 19th; 20 to 21 rain and much colder for a few days; 23 to 26 thunder storms; 30 to 31 local thunder storms.

### APRIL

First to 2nd fair, pleasant; 3rd light local rain; 4 to 5 cold; 7 light local rain, and rain again about the 12th; rain also between the 15th and 17th, while it may remain a little cloudy for a day or two after this storm period. A spell of extra fine April weather will follow for the rest of April, including May 1st. No moon storms are indicated during this period, and a steady, gradual rise in temperature should come during this period.

### MAY

First, fair and pleasant; 2 to 11 very rainy spell, unusually wet, the longest storm period of the year, with floods and washouts and dangerous period for traveling. After this period it will be rather warm and pleasant with gradually rising temperature. Some rain again is likely by the 22 or 23, and rain again about the 29th.

### JUNE

First to 2nd rain and thunder storms; severe local storm 5 or 6; severe local wind and rain storm also about the 8th or 9th. A hot wave should come between the 13th and 15th and the latter half of June should be hot. Some local rain the 15th or 16th and light local rain about the 24th. Severe storm likely the 25th or 26th. Some local rain the 28th. Local rain also on 30th or July 1st.

### JULY

Some local rain, likely about the 1st and 3rd; light local rains 7th or 8th. A fairly good rain may come 14th or 15th, and local rain the 18th; 22 showers; 23 to 24 heavy rain, possibly 3 inches, causing a big rise in the river; 26 to 27 severe local thunder storms; 30 light rain. Mostly hot weather should prevail for July.

### AUGUST

Moderate temperature seems to be the rule for August of late years. A storm period which might bring a cold rain, is likely between 3rd and 5th, followed by fair weather, with hot wave, the 15th, and severe local storms 15th and 16th; a good, moderate rain about the 19th. A thunder storm likely about the 25th. Severe thunder storm with heavy rain 28th to 29th.

### SEPTEMBER

Some local rains likely 1st to 2nd, with moderate temperature for the whole month. Some rain is likely between 11th and 15th, but dry weather will be the rule for most of the month, after the second storm period. Very dry after the 18th.

### OCTOBER

This will be mostly a warm, pleasant autumn month, but not as warm as October of 1923 is likely to be. Some local rain the 2nd. A more important storm period is due about the 14th, but may be only local rain. A general rain is due about the 19th. Rain likely the 22nd and a severe thunder storm the 26th. Some local rain about the 31st.

### NOVEMBER

This should be mostly a pleasant autumn month, with very few cold days. Some cloudiness between the 2nd and 5th, but mostly fair till the 14th or 15th when rain, with possibly thunder storms is due; 16th to 18th likely cloudy; 20 to 21 rain; mostly fair or clear till the 26th or 30th, rain.

### DECEMBER

3rd to 4th rain or snow and colder; rain likely the 6th; 11 to 12 rain, likely followed by cold wave lasting several days with the coldest weather for December between the 12th and 23rd, moderating for snow storm 20th or 21st. Some local storms the 25th and 30th or 31st, but fair weather is a strong probability for Janesville and vicinity after the 21st.

## Tells of Loss, Grief, Caused by Berkeley Blaze

Mrs. Albert Nott, 489 North Pearl street, received a letter, Tuesday, from her daughter, Miss Mabel Nott, a sophomore at the University of California, at Berkeley, Cal., in which she stated that she left the infirmary last Thursday, having recuperated following the shock of the fire which destroyed much of the campus and university buildings several days ago.

More than 1,000 students will have to return to their homes, Miss Nott stated, if relief is not given them by means of clothing and supplies. Very little of the students' clothing was insured and with the burning of dormitories and fraternal buildings, thousands of dollars' loss was suffered by students. Miss Nott saved but few of her clothes.

Although many were left homeless by the fire, she said none were injured. Many of the men students were forced to sleep on the south side of the campus, which was untouched by the fire.

Classes have been resumed at the university and rebuilding commenced.

## \$35,811 Contributed to Tornado Relief Work

Madison.—The tornado relief committee, appointed in June, 1922, to raise funds to meet the immediate needs of sufferers from the disastrous tornado that struck Barron, Wis., took and St. Croix counties at that time, made its report to the governor today.

The report shows that \$35,811 was contributed to the relief committee for distribution among those suffering from the storm, while \$22,159 was expended. The balance of the fund \$3,652 is to be distributed to local chapters of the Red Cross.

The remarkable ability of a community engaged in dairy and diversified farming, to rehabilitate itself, was shown on this occasion," the report said.

BOTH SIDES WIN IN PATENT SUIT  
Madison.—A decision in the case of the Burgess Battery Laboratories vs. the French Battery and Carbon company, a patent case which has taken more than a year to complete, was handed down in the Dane county circuit court today by Judge E. Ray Stevens. Both parties are virtually winners in the case.

The Burgess company is granted the right to the chromate patent, a process most valuable in the manufacture of dry cell batteries, while the French Battery company was awarded the right to a number of other patents in question. The suit has cost each company about \$50,000.

## Local Women to Attend Sessions

Two Janesville women, Mrs. L. G. Catchpole, 205 Madison street, and Mrs. J. S. Roe, 627 Prairie avenue, will represent the local branch of the King's Daughters at the state convention in Manitowoc, Thursday night, Friday and Saturday morning. Mrs. Evalina Lawson, 221 South Third street, another delegate will be unable to attend.

The local women will take an active part in the program, Mrs. Roe giving the response to the address of welcome, and Mrs. Catchpole, a paper in a symposium entitled "How the King's Daughters Serve the State." Mrs. Catchpole will give the address of the society as "An Individuality." As a Branch and "As a State Branch" are other angles of the discussion.

Mrs. L. K. Crissey, this city, is one of the state vice presidents and Mrs. George Ross, Milton, is state treasurer. Mrs. Catchpole is a member of the nominating committee, with officers to be elected Saturday morning at the close of the convention. A large attendance is expected at the convention, as Sheboygan, a nearby city to the convention city, has many branches. The convention was held last year in Janesville, at the local Baptist church. The public library of Manitowoc will be the scene of this year's convention.

## State Opens Quiz into Petroleum

Madison.—An investigation of the petroleum industry, operated in Wisconsin, was opened by the state department of markets today, co-operating with the attorney general's office.

The department expected to obtain evidence in which it could base prosecutions under the state marketing law, should any company, through price reduction, obtain a monopoly of the industry in the state. It also intended to develop facts to be used in prosecutions should an unwarranted price increase follow the present oil prices.

Robert B. Roe, as special assistant attorney general, will be in charge of the investigation. He acted as counsel for the U. S. senate and investigation conducted by U. S. Senator Robert M. La Follette.

Officers of the Standard Oil company of Indiana are the first to be summoned to appear before the investigating body.

## STATE LIMITED IN MURDER PROSECUTION

Sturgeon Bay.—The attorney general's department is "very desirous" of co-operating with district attorneys' offices in obtaining the service of experts to investigate murder cases, but cannot supply assistant attorneys general to aid in the prosecution of these cases. Attorney

General Herman L. Ekern announced today. His statement was made in reply to assertions that his department refused to aid in the investigation of the murder case at Stevens Point.

"The attorney general's office is very desirous of co-operating with the counties in obtaining the service

of experts such as Dr. Hunting and Major W. F. Lorenz, for the immediate investigation of cases of this kind," Mr. Ekern said. "This office has urged that such assistance promptly be secured."

"The misunderstanding in the Stevens Point case arose from the fact that it is the policy of the of-

fice not to send an assistant attorney general to assist in the prosecution of criminal cases because the force is wholly inadequate for doing that as a general policy and for the further reason that the statute authorizes the circuit court to appoint a local assistant to the district attorney."

MINISTERS IN CONFERENCE  
Venice.—Foreign Minister Nijichitch of Yugo Slavia, returning from Belgrade from Geneva, was met today by Voislav Antonievitch, Yugo Slavic minister to Italy. They held a long conference over the Rhine question.

# Hide and Seek

Is a good game but when people want help in a hurry there is no time to seek.

House-cleaning time is with us, the time when cobwebs suffer destruction, when rugs are beaten cruelly, when vacuums purr for hours, and when the house carries the clean odor of soap, water, and fresh air for days.

But someone has to accomplish this. No housewife feels confident to attempt the entire responsibility of chasing germs out and inviting cleanliness in. She wants someone who can offer her their services, a strong shouldered boy or man who can carry water pails, beat rugs, and carry out rubbish from the basement. She wants a woman who understands the rudiments of washing and stretching fragile curtains, of scouring bathroom walls and the digging into the dark corners where clothing and shoes have accumulated throughout the summer months.

What service can you offer that would lighten the housewife's duties and in turn make it worth your while financially?

The housewife wants efficient help but she doesn't wish to waste unnecessary time seeking that help. What she wants is to run her index finger down the "SERVICES OFFERED" COLUMN ON THE CLASSIFIED PAGE OF THE GAZETTE and find just THE HELP SHE NEEDS.

My message to you who are capable of giving service of this kind is to insert a SMALL, INEXPENSIVE WANT AD in the Gazette. You cannot afford to waste this time that could be bringing in money. Besides someone needs your services. Now is the time while the demand for help is urgent.

PHONE 2500

or write to MARY BROWN. She will gladly word the ad that will find your need and help another.

UNVEILING OF WINDOWS  
THURSDAY NITE AT 7 O'CLOCK.

# FALL OPENING

Revealing the Authentic and New in Apparel  
and Correct Accessories

**Friday and Saturday,  
September 28th and 29th, 1923**

Windows Unveiled Thursday Evening, Sept. 27, at 7 O'clock

**Fashion's Choice Contributions Are Presented  
During These Opening Days**

On this presentation the new apparel and accessories for fall have been assembled in a completeness which leaves no fashionable requirement ungratified. Patrons will not only have the pleasure of viewing what is new and desirable, but select for themselves models or materials that are successful adaptations of world renowned styles from the present wide assortment.

## The Dressy Coat

for afternoon and social affairs, for morning-use when the weather is fine.

The long, slender silhouette remains the favorite. Few belts appear, though many of the coats tie at the side, others use ornamental buckles, or self button, and, of course, one may be assured superb quality in every garment. Very reasonably priced from

**\$30.00 to \$130.00**

## The Coat Dress

for every day street wear in early fall—an ideal indoor costume in winter.

No Fall or Winter wardrobe is complete without one woolen dress. The Coat Dress is particularly good for early street wear, made up in point twills and serges, embroidery and braid trimmed, three-quarter and full length sleeves—of one thing you can always be certain, long service. Priced from

**\$11.50 to \$48.50**

## The Knockabout Coat

for stormy days, for shopping, motoring or for business.

The absence of frills and furbelows, the presence of smart, trim lines, commends this style coat for all hard usage. Made up from heavy polo cloths and double-faced camel hair cloths, they retain the straight silhouette like the dressy coat, and a great many have the side tie. They offer a remarkable combination of mannish lines and real feminine charm. Priced from

**\$16.50 to \$48.50**

## Dresses of Silk

for afternoon, dinner or evening. For all dressy occasions.

Made up from fine Silk Canton, Satin back Cantons, fine Silk Velvet, Georgette and Spanish lace. Many stunningly adorned with beads, also plain styles, with touches of embroidery, braid and tucks. Draped models with fancy ornaments. Priced from

**\$22.50 to \$57.50**

## The Suit

for street wear, for afternoon social engagements. How delighted the tailored woman will be this season, now that the long-coated suit is back in favor. We can particularly recommend Wooltex tailored suits. They are exquisitely tailored, smartly styled. They serve so many purposes during the fall and winter for street wear, for afternoon occasions. In point twill and tweed. Priced from

**\$48.50 to \$72.50**

## Furs and Fur Coats

It is decreed that fur coats be long—so long they are. Most of them forty-eight inches, some a bit shorter. There's a tendency to smart over-lapping effects, with large ornamental buckles, or self button, and, of course, one may be assured superb quality in every garment. Very reasonably priced from

**\$37.50 to \$750.00**

Australian Star  
Provides Thrill  
in Golf Tourney

Pelham, N. Y.—Joe Kirkwood, Australian star, provided the thrills Tuesday in the second round of the professional golfers' championship tournament, winning his match with Jim West of Rockaway after being 5 down at the morning round.

A brilliant 73 in the afternoon put him out in front and gave him the victory, 2 and 1.

All the other favorites won their second round matches in handy fashion.

Gene Sarazen, who is defending his title, had an easy time with D. K. White, Wickliffe, D., winning 11 and 10.

Jim Barnes, Pelham 2 beat John Cowan, Boston, 10 and 8.

Bobby Cruikshank, Shackamaxon, beat G. Underwood, Butler, Pa. 7 and 6.

Walter Hagen upset Jack Elphick with ease.

While Orr of Worcester had the best stroke round up to a late hour, with a 69, five under par.

Year of Stunts  
on the Diamond

This has been a season of unusual happenings in baseball.

Besides the hountful quota of home runs, which have fallen below the 1922 output and there were too many that season, records in hitting, pitching and fielding have been made that need more than passing comment.

Third base is a hard position to play but Joe Dugan, of the New York Americans, played 26 games at the corner during which he had no errors against his name.

Cy Williams, Philadelphia National, had three home runs in one game. George Kelly, Giants, had three home runs in succession in one game. Everett Scott, of the New York Americans, passed the 1,000 mark in consecutive games played at shortstop.

Grover Alexander, Chicago National, pitched 54 innings without giving a base on balls, nine full games in all. Adolfo Luque, Cincinnati, won seven straight games in single his great comeback after a bad season in 1922. Dazzy Vance, Brooklyn, struck out 15 New York batters in 11 innings, 14 of them in nine innings, and yet lost his game.

R. F. B.'s Booking  
Basketball Games

Planning the 1923-24 basketball season, the announcement is made by Ted Hager, manager of the R. F. B. Athletic club, that prospects are bright for a strong team. Hager announces that with the exception of Winfield, the club will have all of last year's team available for play the coming season.

It is planned to secure a basketball coach to put the team in shape. Fifteen or 20 men are expected to report when the first practice is held.

Manager Hager states that out of town games have been booked with the following: Hammond, Ind.; All Stars; Hammond, Ind.; Colonials; Dixon, Ill.; Lesion team, and Red Crowns of Whiting, Ind.

Football Prospects Are  
Bright for Whitewater

Whitewater.—Saturday saw the first scrimmage of the season for the Whitewater normal squad. Coach Agnew and his associates have been drilling on fundamentals and conditioning the men until they are at present in good shape to stand up under all kinds of treatment.

Practically all the 15 old men and most of the 36 new ones came back in excellent condition from summer's work on cement, gauges and road building.

New Men Promising.

The new men will attempt to oust the old ones by sheer football prowess rather than be selected on their apparent ability. The size of the squad and the caliber of the candidates make this system imperative.

It looks now as though some of last year's champions are going to do a little bench practice for a change.

This year's team should average around 200 pounds in the line. It is much faster than last year, when Whitewater had probably the best line in the normal conference. This together with their weight bids fair to make keen competition for some team.

Backfield Experienced.

The backfield led by Capt. "Andy" Dyer is an old experienced field with two sets of new material that will make it step all the way to hold its position.

The ends with Buckle of last year's team and Barry, Garofoli, Schultz and Schwager, are fast, heady players. Bostad, the old star tackle and punter, will have his hands full keeping in good shape.

Owens, a pair of 200-pounders, Peters and Thompson may have to alternate at guard with Owens, if he does not make a tackle. Kwapi, with 210 pounds of solid beef, will furnish competition for Ingalls, the best center in the state last year.

Three quarterbacks, Feinberg, Murch Gharriy and Brosa, will call the plays. All three are old heads and steady players, with knowledge of the fine points in generalship.

For halfbacks, Coach Agnew has Kitzkie, Capt. Dyer, Dabbenen, Rahbar, M. Schwager and Zwick of last year. Danielson, Libby and Dehman are first and likely men. Ed Gharriy and Warren are putting up a great battle for the third back position.

Owens and Zwick are battling for the kicking job, with the honors about even at present. Whitewater has three triple threat men this year, something unusual. The substitutes are going to be heard from before the season is over, which should be a good one for the champion of last year.

Arrows Eleven Seeking Games

Football games are sought by the Arrows Athletic association, which opened the season Sunday defeating the Spring Brook Giants, 12-6.

McGill and Zahn accounted for the touchdowns made by the Arrows, while G. Viny carried the ball across for the sole touchdown of their opponents.

The Arrows team Sunday was composed of: A. McGill, center; Goede, right guard; Egbert, left guard; Fullman, left tackle; Freeman, right tackle; Zahn, left end; Kingsley, right end; L. McGill, left half; Hill, right half; and Zierath, quarterback.

The boys are of high school age and had a successful baseball season. Communications should be addressed to Thomas McKine, manager of the Arrows. He may be reached at night at Phone 1034W.

MINERAL POINT IS NEXT FOR MONROE

Monroe.—Coach C. T. Byrnes, of the Monroe high school, is working this week towards correcting some of the defects in the team play which showed up at Beloit Saturday, when Monroe lost the initial football game of the season, 8-7.

He has six letter men which he has used as a nucleus and the total squad numbers 20. He diagnoses his prospects as being the average. The schedule calls for the following games:

Sept. 29—Mineral Point at Monroe.  
Oct. 6—Baraboo at Monroe.  
Oct. 13—Rockton, Ill. at Rockton.  
Oct. 20—Janesville at Monroe.  
Oct. 27—The Grays at Monroe.  
Nov. 3—Monticello at Monroe.  
Nov. 10—Janesville at Monroe.

COLGATE HAS GIANT

Hamilton, N. Y.—Colgate boasts the heaviest line in college football in the person of "Bus" Duddy, of Newark, N. J., who tips the scales at 285 pounds.

SCOTT MAKES IT  
1,128 GAMES, NEW  
WORLD'S RECORD

New York.—The record for consecutive performances in baseball games—major and minor—now belongs to Everett Scott, shortstop of the New York Yankees, without a doubt.

By this season he established a new record for the major leagues, but some statisticians derived and derived that Perry Lipe, a player in the Southern league, held the record at 1,127 consecutive games, finished in 1922.

Scott this week ran his string up to 1,128 games. If he plays the remaining games on the Yankees' schedule this year, he will have completed seven full seasons and part of another without having missed a regularly scheduled game. He began his major league career with the Red Sox on June 20, 1916.

HUGUIN ENTERS DODGE COUNTY RACES

O. M. Huguin, Janesville, has two horses entered in the events at the Dodge county fair which opened Tuesday, at Beaver Dam. "The Point," a brown mare, was entered in the 2-25 class, and "The Point," a brown mare, was entered in the 2-25 class.

Peter the 3rd, from the Sain Wallace, is entered in the 2-30, trot. T. B. Goodall's stable is represented by the horses "H. E. Alhorn," "Dick Thompson," "E. Alhorn," is entered in the 2-12 trot.

Ralph Wiswell, Elkhorn, is the starter and M. E. Hoover, presiding judge.

FIRST SCRIMMAGE FOR BADGER TEAM

Madison.—The first real scrimmage of the season for the University of Wisconsin football squad, is promised for this afternoon when two teams of varsity men will try out plays against each other.

Coach Jack Ryan has contented himself in the opening days of the training season with line scrimmage and various kinds of conditioning drills.

Former Coach John E. Richards will be in Madison tomorrow. He is coming for business reasons and probably will not aid in coaching the squad.

Taft, Radke, Stengel, Ed Williams and Holmes entered Tuesday to backfield men, who practiced returning the ball. Taft, Whitewater boy, and Stengel showed good form. The freshman football squad starts practice this week, with 145 men reporting.

Archie Mucks, world champion discus thrower, visited Tuesday and raised the material. Mucks drove from his farm in South Dakota.

JUNIOR WORLD SERIES WILL OPEN OCT. 10

The junior world's series, between Baltimore, pennant winner in the International league, and the winning team in the American association, will start in the American association territory Oct. 10. President Hickey announced yesterday. St. Paul and Kansas City are fighting for the American championship, with St. Paul having a lead of three games. Four games will be played in the west on Oct. 10, 11 and 14. The clubs will invade Baltimore for the final games, starting Oct. 17.

BALL LEAGUE MEETING

The industrial baseball league will meet Thursday at 8 p. m. at the Janesville Y. M. C. A.

# Janesville, Here's Our Plan

*Three mighty forces unite in raising the standard of the clothing and shoe industry*

## CHAPTER ONE

UPON the creation of the universe, man—the dreamer of dreams, the romancer, the idealist—was made “boss of the works”.

Edison dreams his dreams of progress, while the prosaic mortal, like a full fed mastiff, dozes quietly at the house-door of content.

Fulton, Bell, Tatin, Marconi—the genius of the aeroplane and the automobile,—all were dreamers, and the world is bettered by their dreams.

Thus, it would seem that the dream of the dreamer is civilization's “best bet”. Quoting a contemporaneous writer—“guide maps and textbooks only tell how far we have come. Inventors and pioneers start where they leave off”.

And so, I have dreamed of a new order of things in a commercial sense. I have dreamed of super-clothes and super-shoes—“heart and soul” clothes and shoes—the finest garments and footwear that super-effort and super-intelligence could produce.

In America there are many diamond merchants—yet when we think of diamonds we think of Tiffany. The great piano industry affords many excellent makes—but there is only one Steinway. Why not a Tiffany or a Steinway of the clothing and shoe industry?

This thought stuck in my mind. And throughout the weary months which followed—it seemed almost like ages—I dreamed and dreamed and worked unceasingly in developing this merchandising plan.

## CHAPTER TWO

In pursuit of my ideal I visited the great clothing and shoe manufacturers. I talked with them; examined their products and I found that many of them were really making good clothes and shoes. But I had a definite thought in mind—something better.

The first step was to reach the source of production—the great woolen mills of America and foreign lands—the great eastern shoe factories. As retailers, we were unable to do this, and so, we began casting about for manufacturers who did have access to these coveted markets—manufacturers who could see eye to eye with us—manufacturers of recognized purchasing ability. And those manufacturers we found in Cohn, Rissman & Company, makers of Stratford Clothes; Lape & Adler, Columbus, Ohio, makers of the finest footwear.

Inspired by the tremendous commercial uplift pledged under this new order of things, Cohn, Rissman & Company, and Lape and Adler welcomed the opportunity to “hook up” the productive energies of their institutions with our plan, in order that we, jointly, might offer a finer grade of clothing and shoes.

## CHAPTER THREE

And so the problem of reaching the source of production was solved—and subsequent arrangements perfected—by which The Varsity becomes one of the most exclusive clothing and shoe institutions in the state of Wisconsin, operating far ahead of the market. Our plan assures greater individuality, emphasized personality, and absolute distinctiveness in dress.

In manufacturing—under the new order of things—Stratford Clothes—Varsity Shoes—will positively excel—for advanced style, fine tailoring and workmanship and production brains have never before entered so prodigally into the making of men's clothes, men's and women's shoes. Each of the innumerable, separate and distinct operations required in the manufacture of these superb garments and shoes, is deftly executed by skilful hands, by entirely new and original methods—absolutely “foolproof.” Accuracy is the keynote—it can't go wrong; a perfect fit or drape is the result.

## CHAPTER FOUR

Recently, we fired a shot of “Dynamite and Printer's Ink” which rang throughout the state of Wisconsin—the first definite step toward the inauguration of the new order of things. We invited the people to come and carry away our present stock of clothing, at startling reductions; that we had a new and better merchandising plan which we wished to put into effect as speedily as possible. They believed—they came—and they bought; result, in six weeks' time the job was done—a colossal achievement, unparalleled in the retail clothing and shoe history of this state.

And now, folks, we're ready for inauguration of this new plan; we await with confidence your approval of the new order of things—the new order of things as regards the manufacturing and selling of men's clothing, and men's and women's shoes.

On Thursday, September Twenty-Seventh, our formal opening will occur, and you are cordially invited to visit with us on that day; come as our guest on this important occasion—important because it ushers in an era of newer and better things.

We want you to see and inspect the most magnificent exhibit of fine clothes and shoes ever attempted by any Janesville merchant, and to study the practical workings of a plan, in which gumption supersedes greed, and idealism triumphs over commercialism.

The only force which really dominates the world today is the force directed by the heart and mind. And so, Janesville, we submit our new merchandising plan. And every drop of blood in my body—and of my associates—is pledged to the faithful fulfillment of its every promise.

J. E. CROAKE, President.
